

Download VMWare View

1. Open a web browser
2. Click this link to install
https://my.vmware.com/web/vmware/info?slug=desktop_end_user_computing/vmware_horizon_clients/4_0
3. Select the appropriate download based on your OS and click **Go to Downloads**
4. You will then be at a screen with the option to Download the VMware View client. Click **Download**.
5. Once the download completes you may Run to install.
6. You will be prompted to Restart your computer to complete the installation.
7. Once you've logged back in the installation completes.

The server URL is **remote.hocmc.org**
